

THE SOLUTION FOR HAULING CRAWLER CRANES

HOLLAND MAXER Trailer for Crawler Cranes

The Holland Maxer trailer is the solution to haul your crawlers faster and for less expense. Time is money and you will be down the road faster and easier with the Holland Maxer.

Features & Benefits

- Four or five axle configurations
 - This creates the ability to meet tighter road restrictions
 - Use a three or four axle tractor to pull
- Optional sixth and seventh axle configurations for extreme axle requirements
- Caster axles with locks
 - Improved maneuverability
 - Increased tire life
- Lift axles for
 - Maximum onsite maneuverability by raising axles to shorten the turning radius
 - Allows easier maneuvering for narrow driveways or access roads
 - Saving money, fuel economy, and tire wear by lifting unused axles while empty traveling down the road
- Larger ground clearance than lowboys - this prevents trailers "getting hung up" while maneuvering
- Stable suspension for high center of gravity load
- Heavy duty 25,000 lbs. axles and suspension
- High strength alloy chains and hooks for tying down - less chains means less time wasted securing and un-securing loads
- Built in pull out access steps

Options

- Optional power tower with limited tilting fifth wheel plate for rough sites requiring more clearance and oscillation
- Optional manual tower with limited tilting fifth wheel plate to adjust for different truck heights and giving more clearance on rough sites
- Air scales for axle weights
- Storage boxes for remotes, rigging, and other crawler setup items
- Storage locations for outrigger floats for self assembling crawlers
